Experiences

Weddell
Seoul, Korea
07.2019 - 10.2019

Product Designer

Designed a baby product suggestion platform with another designer, engineers, and a CEO. Interviewed and surveyed moms to gain insights into mom's communities and their pain points of getting parenting information. Designed app architecture, wireframes, and final screens.

A-Maz-ing Seed Planter
Cambridge, MA
02.2019 - 05.2019

Industrial Designer

Collaborated with Sloan MBA, MIT engineering, and MIT SDM students in a scrum environment to create an affordable tool to facilitate seed planting for conservation farming. Conducted user research and product testing. Developed CAD models and functional prototypes.

Giant Shoulders
Providence, RI
06.2018 - 08.2018

Design Intern

Designed user-flows, wireframes, and final screens for voice recording business productivity app, "Retriever." Generated data visualizations, animations, mockups, and presentation slides for clients and business partners.

Luxrobo
Seoul, Korea
06.2017 - 08.2017

Design Intern

Generated rapid prototypes and ideas to help users easily learn how to code and build DIY robots using the company's modular devices. Developed a brand design guide with the design team. Showcased and explained the company's products to future clients at an exhibition.

ISE (RISD)
Providence, RI
02.2017 - 05.2018

Project Assistant

Collaborated in staff meetings and professional development trainings to make RISD community more inclusive and safer. Coordinated administrative coordinator and cultural programmers with hosting and developing cultural programs.
